Your BMI :

Category :

BMI REFERENCE

Category	BMI Range
Underweight	<18.5
Normal	18.5 - 24.9
Overweight	25 - 29.9
Obese	30 or Greater

Clear

1. Header - BMI Calculator

This is the title section of the application. It clearly shows the name "BMI Calculator" so the user knows the purpose of the app.

2. Unit Selection:

This section allows the user to select the measurement system they want to use:

English - Pounds (lbs) and inches (in)

Metric - kilograms (kg) and meter (m)

The input units will change according to the selected option.

3. Weight Input:

The user enters their body weight in this field. The unit is displayed beside the input field depending on the selected measurement system.

Example :-

English → 150 lbs

Metric → 68 kg.

4. Height Input:

The user enters their height in this field. The unit changes according to the selected measurement system.

Example :

English $\rightarrow$ 65 in.

Metric $\rightarrow$ 1.70 m

5. Calculate BMI Button

After entering the weight and height, the user clicks "Calculate BMI"

The system calculates the BMI using the appropriate formula and displays the result.

6. BMI Result Section

This section displays the user's calculated BMI value and the corresponding BMI category.

Example :

BMI : 22.5

Category: Normal

The category is determined using the given BMI ranges.

7. BMI Reference Section

This section provides the BMI ranges so users can understand and evaluate their BMI result.

Category	BMI Range.
Underweight	Less than 18.5.
Normal	18.5 - 24.9.
Overweight	25 - 29.9.
Obese	30 or Greater.

8. Clear Button.

The Clear button removes the entered weight and height values and resets the result, allowing the user to perform a new calculation.
